

What is important to me?

It is important to me that I keep my independence I do have a disability but I can still do a lot for myself.

When I am getting ready I always want to look my best.

It is important to me that I spend time with the rabbit and any other animals that visit as this is one of my passions.

I need to have my teddy with me at all times, and I keep him in my top.

It is very important that the staff talk to me throughout the day about what is going on as it does become lonely not knowing what is going on around me, I enjoy company but not too much going on that I get confused. I enjoy listening to music & a sing-a-long. I do really enjoy listening to music & could listen to this all day

To go to church often

I DO NOT LIKE CHICKEN.

What people like and admire about me

People admire me because I am very determined, kind, friendly and sociable.

Mary

How I can be best supported

I can be best supported by staff explaining to me what they are about to do for me & giving me time to take it in.

Always give me time to understand what is happening.

STAFF MUST NOT WASH MY FACE. I DO THIS.

I need the staff to get the bunny for me daily so that I can pet him, as I really enjoy this.

Know my teddy must not leave my side, I need this for comfort.

I need the staff to ensure my room is personalised with objects I can touch, this then makes me feel safe.

Do not underestimate my abilities.
