Inquisitive

What is important to me

Seeing my mum and dad at least once a week.

I love motor racing, especially team MaClaren and watching the Grand Prix, it doesn't matter if I've already seen it! My hero's are Jensen Button and Lewis Hamilton.

Playing on my play station most days with the volunteers who come in to compete with me.

Seeing my uncle every Sunday going out together, we love going the cinema or if the weather is good doing my uncles garden.

To go out everyday, not to anywhere in particular as long as I am getting out and spending time with people. I'm always the first person to say yes to any suggested outings.

Having friendships is important to me, in particular with my friend Dave Somers and Lois who supports me.

Going to as many airshows, as I can get to. I love all airplanes and am fascinated by the RAF. I must wear my RAF hat and bomber jacket whenever I go out.

Leeds united are my football team and I love to go to live matches and taking part in the lively banter. If I don't get to a match I watch the games on the TV with mates. I really enjoy getting involved in the whole atmosphere of the game.

Watching films, especially ones about airplanes. Top Gun is my favorite.

Having fish and chips every Friday from my local chippy or when I am having a day out.

How best to support me

Know that I always get up early and enjoy being the first person up and about, I'm a morning person and my staff need to be cheerful and chatty with me.

Knowing everything that is going on matters to me, I ask lots of questions about anything that interests me, if you don't have the answer immediately let me know when you will get back to me.

I must have a newspaper delivered daily, but especially like to read the films section on a Friday. Know that I will want to be the first person to have a read of the paper.

My room must be exactly how I want it. A place for everything and everthing in its place. When you support me with household tasks, know that I will do as much as possible for myself. I will ask you if I need more support.

I use my foot supports everyday to prevent pressure areas before starting to use my wheelchair. Know that I will always put these on myself, check that they are adjusted correctly.
